RAYMORES

WIND AND TIME

Live, Raymores delivers a strong uplifting message. The artist knows that the welfare of the world, and therefore each individual, depends on us. In a show wrapped in symbols of wind and time, he leads his audience into a light and optimistic mood. Enjoying, dancing and listening carefully, the 60-90 minutes of the concert pass very quickly. The show takes place outdoors, in theaters and at concert venues. The stage design always involves decoration of fabrics and lighting.

BIOGRAPHY | RAYMORES

Iván Raymores, known by his last name "Raymores", published the singles "Pasito a Paso" and "Ordinary Love" in 2022, the single "Brillos" in 2021 and the album "Click!" in 2020. After accumulating 30 years of experience as a musician and music producer, he manages to merge musical genres such as rock, pop, disco funk, folk, spoken words, and Latin rhythms into a musical genre that he calls "adult rock." his music is a reflection of his own serene, balanced, thoughtful and optimistic personality.

Since the release of his first album in June 2020, Raymores has given multiple concerts in Spain and Germany and has entered various national and international radio and television programs.

Born and raised in Panama, Raymores belongs to the important wave of rock in the 80's and 90's and as a young guitarist with the group "Peso Neto" that became nationally famous. At the same time, he began his professional life as a sound technician and has worked since then without deviating as much as a musician, as a sound technician on stage and in recording studios. When the small country of Panama became culturally too narrow for him, Raymores emigrated to Madrid, Spain, where he has made his creativity, talent and knowledge available for other artists' musical projects. Now, in his solo career, he lays out his entire journey as an author, composer, musician and producer, yet carefully leaving room for simplicity.
